<td>Burpees</td>
</tr>
</tbody>
</table>

NOTES
This workout begins from the standing position with the barbell on the floor and the athlete standing tall. Using a ball, box or other object to check for proper depth is not allowed. Every second counts in this workout. Your score will be the time that it takes to complete all 168 repetitions. There is no time cap for this workout.

This workout ends when the feet land on the other side of the bar on the final rep. Time will be recorded in full seconds. Do not round up. If you finish in 14:34.8, your score is 14:34.

EQUIPMENT
• Barbell
• Plates to load to the appropriate weight for your division
* If you do not use standard size bumper plates on the barbell you will also need:
  • A 9.5-inch high target to jump over on the burpees

** The official weight is in pounds. For your convenience, the minimum acceptable weights in kilograms are 43 kg for the Men and, 29 kg for the Women, 29 kg for the Masters Men, 20 kg for the Masters Women.

VIDEO SUBMISSION STANDARDS
Prior to starting, film the plates and barbell to be used so the loads can be seen clearly. All video submissions should be uncut and unedited in order to accurately display the performance. A second person with a stopwatch should be in the frame throughout the entire workout. Shoot the video from the side so it is clear that proper depth and lockout is being reached on the thrusters and the chest and thighs can be seen touching the ground on the burpees.

Note: Depending on your performance, this video may be longer than previous workouts. Be sure you have enough battery life, memory, and time to upload your video. You may need to increase your limit on YouTube to allow a longer video.

MOVEMENT STANDARDS

THRUSTER
This is a standard barbell thruster in which the barbell moves from the bottom of a front squat to full lockout overhead. The bar starts on the ground. No racks allowed.

BURPEE
Each burpee must be performed perpendicular to and facing the barbell. Your head cannot be over the barbell. The chest and thighs touch the ground at the bottom.

You must jump over the barbell from both feet and land on both feet. One-footed jumping or stepping over is not permitted.

The next rep will then begin on the opposite side facing the barbell.
